The many friends of Mr. Abbey in Napoleon wish him success in his labors and a pleasant home in the far off country.
FLORIDA MILLS.—The farmers especially and the public generally, will be pleased to learn the fact that the Florida flouring mills are again in running order and ready to receive all customers. The mills have had a complete overhauling and are now furnished throughout with all the latest improved machinery. One of the commendable features of these mills is that each farmer gets the product of his own grain, and not that of wheat raised by somebody else and probably much inferior to his own. This mill also shells all corn free for those wishing it ground, and deserve a liberal patronage from the public, who no doubt it will get. Mr. Klingelhoefer is an old and experienced miller, and Mr. Sigg is well known in Napoleon, and having worked in the mills at this place, and is known as a good miller.

Ornamental.
It seems to be necessary that every well regulated house should have its windows shaded in order to make it look complete and finished, in fact, good health very often requires it, and society often demands it. Saur, who is always looking after the interest and wants of the people, has just placed on sale at his large drug and book store a very extensive line of the most different kinds of cloth and paper shades, including the fixtures of the latest and most approved styles, at prices so low that everybody can even afford to buy the best and most ornamental. The goods are of the very best quality, and were bought at bankrupt prices, which accounts for the large stock being thus so suddenly put on the market at the low figures marked. Don't fail to see them and you will at once say that this is a golden opportunity to secure what I want and need, very cheap.
"Twas strange, 'twas passing strange. 'Twas pitiful, 'twas passing pitiful."

ED. NORTHWEST.—In your issue of August 17th you say the announcement of Wm. McGee is all bosh. My Democratic friends have come to me asking me to run as an independent candidate for County Commissioner. If my Republican friends throughout the county think me competent for the office, I should deem it an honor, as well as to have my Democratic friends support me. My politics are too well known to need any showing from my hands. **WM. MCGEE, JR.**

MISSIONARY PIC-NIC.—A missionary picnic was held in the grove at Hanover on last Sunday. Prof. Lloyd, of Columbus, preached, and Revs. Damman and Strouse spoke. There was a large attendance, probably two thousand persons, and the collection amounted to \$110.50, which is to go toward missionary purposes.
As usual, several rows occurred at the "Monkey House" last week and one of the victims had a beautiful head put on him. Can't this dive be abated or the inmates fined so heavily and so frequently that they will be glad to leave town? Ever since the building has been where it now stands it has been one of the greatest eye-sores in Napoleon. Replenish the city treasury occasionally by heavy fines upon such.
The Dayton and Michigan railway has determined to change its route so as to run through Piqua. The change will require ten miles of new track, leaving the present line at Troy, running up the west side of the river through Piqua, and across the river on a new bridge, joining the old line a short distance north of the town. The change will be a great improvement. The way it now is, everybody who goes to piqua, gets off the train while it is a mile out in the country.
A firm in New Britain, Conn., is said to be now the only remaining manufacturer of the deadly toy pistol. Manufacturers at Bridgeport and South Norwalk, in that State, claim to have destroyed their patterns and gone out of the business. There is, however, no law against making this horrid toy, and as there has been found much money in it in the past, new patterns may spring into existence any day. There are probably many thousands in stock in toy stores all over the country awaiting sale. Their manufacture should be forbidden and those in stock should be confiscated.
Judge J. J. Moore, of Ottawa, Putnam county, Ohio, with his family, is visiting Los Angeles. Mr. Moore is Judge of the third sub-division of the Third District, including the counties of Putnam, Henry and Fulton. He came to Los Angeles for the benefit of his wife's health, which has been greatly improved by her short sojourn in our mild climate. Judge Moore, by invitation of Judge Sepulveda, occupied a seat on the bench in the Superior Court during the trial of several cases on Friday, and was much interested in the California mode of procedure. Judge Moore is a thorough Democrat and a most accomplished and genial gentleman.—*Los Angeles (Cal.) Herald*.
